Introduction

1. Australia supplied the UNCTAD secretariat with information on its imports from beneficiaries of its scheme of generalized preferences in Fiscal Year (FY) 1989/90. 1/ A summary of the information contained in this reply is given below and the detailed data on imports from beneficiaries are presented in the annex. 2/ The information contained in tables A and B relates to the value of total, dutiable GSP-covered/received imports 3/ from each beneficiary of products contained in HS 1-24, 25-97 and 1-97. Table C gives the value of imports of products covered by the scheme from the world and the total of covered/preferential imports from all beneficiaries as well as from major beneficiary suppliers of these products.

Imports by Australia from beneficiary suppliers in Fiscal Year 1989/90

2. As may be seen from table B, Australia registered imports from 123 beneficiaries in FY 1989/90. Eighteen of the beneficiaries did not export any dutiable products to Australia and therefore could not avail themselves of the advantages under the scheme. Seven of the beneficiaries could not lay claim to preferential treatment because their exports were not covered by the scheme. Thus 98 beneficiaries actually received GSP treatment in FY 1989/90.

3. Total Australian imports from all beneficiaries in FY 1989/90, as shown in table A, amounted to $9.24 billion. Dutiable imports accounted for $5.16 billion or 55.9 per cent of the value of total imports. Of these imports, 95.5 per cent or $4.93 billion were covered by the scheme. The bulk of these covered imports ($4.67 billion) consisted of industrial products and raw materials falling within Harmonized Coding and Description System (HS) chapters 25-99. Agricultural products in HS chapters 1-24 accounted for the remaining $260 million. All these covered imports received preferential treatment and therefore the overall rate of utilization of the Australian scheme as measured by the ratio of imports covered by the scheme was 100 per cent in FY 1989/90.

4. Eight major suppliers accounted for $4.065.5 million or 82.5 per cent of all imports covered/received by the Australian scheme in FY 1989/90. By order of the relative value of covered/received imports into Australia, the major suppliers were: Taiwan (Province of China), Republic of Korea, China, Hong Kong, Singapore, Malaysia, Thailand and Brazil.

5. Total Australian imports from 26 least developed countries (LDCs) in FY 1989/90 attained a value of $45.6 million. Eight beneficiary LDCs 4/ had no dutiable imports. In addition, two other beneficiary LDCs had no covered imports. 5/ Therefore these 10 LDCs could not avail themselves of the advantages under the scheme. Finally 16 LDCs received preferential treatment in FY 1989/90. Covered/received Australian imports amounted to $13.8 million. Malawi ($7.1 million), Togo ($3.4 million), Bangladesh ($1.2 million), Tanzania ($0.8 million), Samoa ($0.5 million) and Vanuatu ($0.2 million) accounted for 95.5 per cent of total covered/received imports. The first three countries alone accounted for 85 per cent of total covered/received Australian imports.

6. Australian imports of products covered/received by its scheme from Mediterranean (MED) and ACP countries, which enjoy special preferences in the EEC market, amounted to $80.1 million and $30.9 million in FY 1989/90. The two groups of countries supplied 2.3 per cent of products which actually received preferential treatment.

Imports of major products covered by the Australian scheme in FY 1989/90 and their major beneficiary suppliers

7. Table C shows the value of Australian imports in FY 1989/90 of products covered by the scheme from the world, all beneficiary suppliers and individual major suppliers of HS chapters at the two-digit level. Imports from beneficiaries of major products covered by the scheme (80 per cent of all imports from beneficiaries covered by the scheme) were recorded under 22 HS chapters. Imports of these major products from beneficiaries amounted to $3.988.5 million or 80.9 per cent of the total imports covered ($4.929.6 million). It should be noted that all these major products are industrial products and therefore fall under chapters 25 to 99.

8. The 22 major products were (value of covered/received imports expressed in $ million): HS 85 electrical machinery and equipment ... (537.4); HS 39 Plastics and articles thereof (267.5); HS 95 Toys, games and sports requisites (231); HS 84 Nuclear reactors, boilers, machinery ... (226.8); HS 99 Industrial products not elsewhere specified 6/ (226.4); HS 61 Articles of apparel and clothing accessories, knitted or crocheted (205.5); HS 27 Mineral fuels ... (198.7); HS 44 Wood and articles of wood (196.6); HS 64 Footwear ... (195.6): HS 62 Articles of apparel and clothing accessories not knitted or crocheted (195.4); HS 55 Man-made staple fibres (173.7); HS 52 Cotton (169); HS 73 Articles of iron and steel (151.6); HS 94 Furniture ... (151); HS 42 Articles of leather (138.5); HS 87 Vehicles other than railway ... (131.9); HS 72 Iron and steel (129.3); HS 40 Rubber and articles thereof (118.4); HS 48 Paper and paperboard (95.4); HS 63 Other made-up textile articles (93.4); HS 54 Man-made filaments (84) and HS 83 Miscellaneous articles of base metal (71.7).

Notes

1/ The detailed information was supplied on diskette.

2/ For previous information received from Australia, see TD/B/C.5/PREF/28.

3/ Under the Australian scheme, all covered imports indeed received preferential treatment. The rate of utilization is therefore equal to 100 per cent.

4/ Central African Republic, Comoros, Gambia, Kiribati, Mali, Niger, Tuvalu and Uganda.

5/ Djibouti and Sudan.

6/ This chapter is reserved for special uses by contracting parties to the HS.
